DE LEONE, Renato is a professor at the School of Science and Technology, University of Camerino, Italy. He performed research in mathematical programming and optimisation and taught various courses in applied mathematics and operations research. From 1984 to 1993, he was a Research Associate, Lecturer and Visiting Professor at the University of Wisconsin – Madison (USA). Since 1994, he has served, among others, as Chairman of the Mathematics and Computer Science Department, Coordinator of the Bachelor and Master courses in Mathematics, Vice Director of the School of Science and Technology, and Rector Delegate for Erasmus International Mobility. From January 2007 to December 2011, he was president of AIRO, the Italian Association of Operations Research. His main research areas are Optimization and Mathematical Programming, Mathematical Modelling, and Machine Learning, with a special interest in Classification problems using Support Vector Machines and Decision Support Systems (DSSs).
